Vision

Beladi Corporation is dedicated to becoming a leading force in the domain of information technology systems and communication enterprises. With a strong commitment to staying updated with the remarkable advancements in control systems and communication apparatus, we strive to achieve excellence in the production, maintenance, and delivery of state-of-the-art control devices and cutting-edge communication equipment.

At Beladi Corporation, we recognize that the world of technology is constantly evolving, and we are determined to stay ahead of the curve. We invest in research and development to drive innovation and create solutions that meet the ever-growing demands of our customers. Our team of talented engineers and technicians work tirelessly to design and develop groundbreaking products that push the boundaries of what is possible.

In addition to our focus on technological advancements, we place great importance on customer satisfaction. We believe that building strong relationships with our clients is the key to our success. By understanding their needs and providing exceptional service, we aim to exceed their expectations and become their trusted partner.

As we look to the future, our goals remain centered around these objectives. We will continue to invest in cutting-edge technologies, foster a culture of innovation, and expand our global presence. Beladi Corporation is committed to maintaining its position at the forefront of the industry, delivering superior products and services that shape the future of information technology systems and communication enterprises.

Mission

Beladi Corporation is dedicated to achieving pioneering status in the field of information technology systems and communication enterprises. With a strong commitment to staying updated with the latest advancements in control systems and communication apparatus, our primary focus lies in producing, maintaining, and delivering cutting-edge control devices and state-of-the-art communication equipment.

By consistently striving for excellence, we aim to be at the forefront of technological innovation and provide unmatched solutions to our customers. Our dedicated team of experts continuously monitors industry trends, conducts extensive research, and collaborates with leading partners to ensure that our products and services remain ahead of the curve.

Through our unwavering dedication and passion, we aim to shape the future of information technology systems and communication enterprises, empowering businesses and individuals with advanced tools that enhance productivity, connectivity, and overall performance. Together, we can unlock endless possibilities and drive positive transformations in the digital landscape.

Who are we ?

BELADI COMPANY is a leading IT Contracting company in Iraq working in the field of providing modern IT & Communication Solutions. Our comprehensive range of services encompasses various areas, starting from Cabling infrastructure, Switching, Routing, and Security solutions to IP-Telephony solutions, Wireless connectivity, and Video Surveillance through smart IP cameras or CCTV Cameras.

We take pride in offering full integrated solutions, including installation, configuration, and after-sales services. Our team of certified staff possesses the expertise to translate your business needs into practical solutions using the latest technologies in the ICT field. We understand that every business is unique, and we strive to tailor our services to meet your specific requirements.

Additionally, we specialize in delivering reliable, efficient, and customized electrical solutions. Our skilled technicians bring meticulous attention to detail to every project, handling installations, troubleshooting, and repairs with utmost care. We prioritize workmanship, safety, and customer satisfaction, ensuring that your electrical systems operate flawlessly and adhere to the highest standards.

At BELADI COMPANY, we are committed to being your trusted partner, providing end-to-end IT and electrical solutions that empower your business, enhance connectivity, and maximize operational efficiency. With our expertise and dedication, we are ready to meet the evolving needs of the digital era and contribute to your success.

What we do ?

We engage in the trade of a wide range of electronics, computers, and electrical power devices, ensuring the legal distribution of accurate devices like automation control systems and sensing devices. Our commitment to quality and authenticity is reflected in the meticulous selection of products we offer.

Through the importation of goods from abroad, we not only facilitate their availability for sale but also enable the export and bartering of local products in international markets. This promotes economic growth, cultural exchange, and the expansion of business opportunities for both local and international stakeholders.

Our services extend to various sectors, including official, semi-formal, public, and private entities. We provide comprehensive solutions to meet the unique needs of each sector.

Our expertise in business preservation ensures that organizations can safeguard their operations, data, and intellectual property. Through technical maintenance, we help businesses maintain optimal functionality and reliability of their technological infrastructure.

Additionally, our administrative expertise supports organizations in streamlining their processes, optimizing efficiency, and enhancing overall productivity.

Beladi's Recognition of Global Energy Requirements

Beladi acknowledges the growing global energy requirements. As the need for extracting, exploring, and processing energy resources continues to surge

there is also a pressing need to streamline operations by enhancing communication efficiency and leveraging suitable technological advancements.

Streamlining Operations with Beladi

Beladi simplifies the integration of essential technologies for Oil & Gas enterprises to establish effective communication channels between distant and perilous sites and corporate offices.

Enhancing Communication Efficiency

By leveraging Beladi's solutions, Oil & Gas companies can overcome the challenges of remote and hazardous locations, enabling efficient communication and collaboration throughout their operations.

Services

Beladi Company delivers a diverse range of solutions to address your unique business requirements.

From expert consulting and seamless project management to innovative technology solutions, we are committed to helping you thrive in today's dynamic market.

01 IT Infrastructure

At BELADI Company, we go beyond just providing network cabling infrastructure solutions to our valued customers across Iraq.

With our extensive expertise and experience, we offer comprehensive end-to-end services, including design, installation, and maintenance, ensuring reliable and scalable network connectivity that supports your business growth.

Our dedicated team of professionals ensures the highest standards of quality and performance, delivering tailor-made solutions that meet your specific requirements.

Trust us to transform your network infrastructure into a robust and efficient backbone for your operations, empowering your business to thrive in the digital age.

Electronic Security Systems

02

Beladi is your trusted partner for comprehensive electronic solutions. Our offerings encompass a diverse range of services, including the installation and maintenance of CCTV systems, fire alarm systems, command and control setups, access control, and more.

With our expertise, we tailor these solutions to your specific requirements, ensuring optimal security, operational efficiency, and peace of mind. Whether it's safeguarding your premises, monitoring critical areas, or managing access, Beladi delivers cutting-edge technologies and customized solutions to meet your electronic needs.

Count on us for reliable and integrated systems that enhance safety, streamline operations, and protect your assets.

03

Telecommunications

Beladi boasts extensive expertise in delivering exceptional telecommunications solutions.

Our track record includes a wide range of services such as O3B, RF Communications, VSAT, PTP, PTM, and more. Whether it's deploying high-speed connectivity for remote locations, establishing robust RF communication systems for seamless data transmission, implementing reliable VSAT solutions for satellite communications, or optimizing network performance with PTP and PTM technologies, we have the experience and knowledge to cater to diverse telecommunications requirements.

Partner with Beladi to benefit from cutting-edge technologies, customized solutions, and unparalleled support in the dynamic field of telecommunications.

Our commitment to excellence ensures your connectivity needs are met efficiently and effectively, driving your organization's success.

Electrical & Instrumentation

04

Beladi excels in offering comprehensive solutions for high and medium voltage substations.

With expertise in design, supply, construction, testing, and commissioning, we ensure the seamless integration of these critical infrastructure components.

Our services extend to the modification of control systems, ensuring optimal performance and efficiency.

Through meticulous planning, precise execution, and rigorous testing, we deliver robust and reliable substation solutions that meet industry standards.

Trust Beladi to provide turnkey solutions that encompass every aspect of substation development, ensuring smooth operations and enhanced electrical distribution infrastructure for your organization.

Our commitment to excellence ensures your power systems are optimized for safety, reliability, and long-term performance.

Clients

Introducing our esteemed client list! We have had the privilege of serving a diverse range of clients, including prominent organizations from various industries, delivering exceptional solutions tailored to their unique needs and fostering long-lasting partnerships.

ExxonMobil

Exxon Mobil Corporation (commonly shortened to Exxon) is an American multinational oil and gas corporation and the largest direct descendant of John D. Rockefeller's Standard Oil.

The company, which took its present name in 1999 per the merger of Exxon and Mobil, is vertically integrated across the entire oil and gas industry, and within it is also a chemicals division which produces plastic, synthetic rubber, and other chemical products.

Majnoon oil field

The Majnoon oil field is a giant oil field located 60 km (37 mi) from Basra in southern Iraq. Majnoon field is one of the oil fields in the world with an estimated 38 billion barrels of oil.

The field was named Majnoon, which means madness in Arabic, referring to the excess amount of oil in the dense area.

Basrah Gas Company

Basrah Gas Company is a 25-year incorporated Joint Venture between Iraq's South Gas Company holding 51% of its shares, Shell 44% and Mitsubishi Corporation 5%. The Joint Venture captures associated gas that is currently being flared from three oil fields in southern Iraq – Rumaila, West Qurna 1 and Zubair.

International Organization for Migration

The International Organization for Migration is a United Nations agency that provides services and advice concerning migration to governments and migrants, including internally displaced persons, refugees, and migrant workers

Ministry of Electricity

The Ministry of Electricity of Iraq is the federal government ministry concerned with electricity. It is responsible for both the policymaking and the electricity supply throughout the country.

Food and Agriculture Organization

The Food and Agriculture Organization of the United Nations is a specialized agency of the United Nations that leads international efforts to defeat hunger and improve nutrition and food security. Its Latin motto, fiat panis, translates to "let there be bread". It was founded on 16 October 1945

Kuwait Energy

Kuwait Energy is an independent oil and gas company actively engaged in the exploration, appraisal, development and production of hydrocarbons, established in 2005.

UNICEF

UNICEF, originally called the United Nations International Children's Emergency Fund in full, now officially United Nations Children's Fund, is an agency of the United Nations responsible for providing humanitarian and developmental aid to children worldwide.

Eni

Eni S.p.A. is an Italian multinational energy company headquartered in Rome. Considered one of the seven "supermajor" oil companies in the world, it has operations in 62 countries with a market capitalization of €48 billion, as of 31 December 2022.

Projects

Discover our impressive portfolio showcasing successful projects executed by Beladi Contracting & General Services & IT.

Data Center

BELADI COMPANY offers top-tier data center solutions and services tailored to cater to your specific data center requirements and connectivity needs.

With our extensive industry expertise and strategic alliances, we deliver adaptable, scalable, effective, and reliable solutions that provide a wide range of connectivity options from various data centers.

Our experienced professionals comprehend the influence of physical infrastructure on logical design and employ established methodologies to ensure efficient implementation, thereby maximizing your return on investment.

We have partnered with AST Modular, a global leader in data center construction under Schneider Electric, and have successfully contributed to the installation and maintenance of numerous data centers for our valued clients.

Server and Storage

BELADI COMPANY possesses the expertise and proficiency needed to identify and fulfill the business goals of small, medium, or large enterprises.

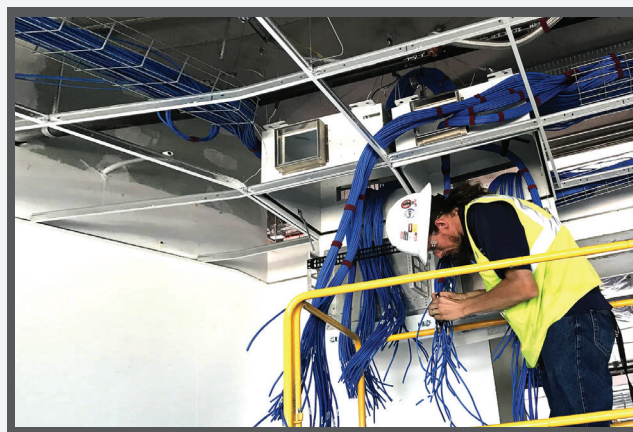

We specialize in crafting application hosting and data storage solutions tailored to their specific needs.

Furthermore, our team possesses the knowledge and capabilities to successfully deploy and resolve any issues related to the implemented solution.

Cabling Infrastructure

Beladi company takes pride in providing comprehensive network cabling infrastructure solutions to customers throughout Iraq. Leveraging our vast experience and strategic alliances with industry-leading manufacturers, we are committed to delivering unrivaled service quality and offering the finest products available in the market. Our dedicated team works diligently to ensure customer satisfaction and exceed expectations.,

With a focus on excellence, we aim to empower businesses with reliable and efficient network cabling solutions that optimize connectivity, enhance productivity, and support their growth in a dynamic digital landscape.

RF Communication

With extensive expertise in RF communication, including Tetra and 2-Way Radios, BELADI Company brings a wealth of experience to the table. As an authorized partner of the renowned RF solution provider "Motorola" and Codan, we offer a wide range of HF, VHF, and UHF solutions.

Our team comprises trained and certified staff members who efficiently execute projects to ensure successful outcomes.

PTP and PMP

BELADI company has established alliances with top-tier providers of Point to Point and Point to Multipoint wireless solutions, including Cambium Motorola PTP series, Harris True-point Series, Redline AN-50, and Redline AN-30.

Through these strategic partnerships, we ensure access to cutting-edge technologies and reliable equipment for seamless wireless connectivity.

CCTV & Surveillance systems

We provide a diverse range of CCTV security systems tailored to various applications, offering an extensive selection of cutting-edge cameras through our partnerships with top manufacturers.

Our team of dedicated specialists possesses in-depth market knowledge and strong connections with industry experts and suppliers.

From single cameras to multi-level surveillance and remote management, we deliver integrated CCTV solutions to tackle any challenge.

Our expertise lies in networked (IP) solutions, which offer superior system quality and a higher return on investment for our clients.

A key strength of ours is the seamless integration of electronic systems and manned guarding solutions under a unified management structure.

Our preferred partners include Bosch, Axis, and Sony, and our engineers are trained and certified to ensure flawless system implementation.

VSAT System

BELADI COMPANY provides comprehensive network planning and Network Operating Centre (NOC) solutions for a wide array of networks, including VSAT satellite, wireless, and end-to-end networks, even in remote and challenging locations worldwide.

We oversee every aspect of network projects, starting from the initial site survey and design, all the way through to ongoing maintenance and support.

Our expertise covers the entire lifecycle of network projects, ensuring seamless connectivity and efficient operations for our clients.

Microwave Systems

We have successfully implemented numerous Microwave links to ensure reliable wireless communication for both voice and data transmission.

Our experienced team is well-versed in working with various MW equipment vendors such as Aviat, NEC Pasolink V4, NEC Pasolink NEO, and others.

We offer a comprehensive range of services including design, implementation, maintenance, link calculations, and warranty support.

Our expertise extends across the southern region of Iraq, covering districts like Basra, Missan, Thiqr, and Almathana, where we have provided our clients with exceptional solutions and support.

Fire Alarm Systems

At our Electronic Security System division, we specialize in delivering comprehensive fire alarm solutions tailored to your specific needs.

Our team of experts excels in designing, installing, monitoring, inspecting, and servicing fire alarm systems that fully comply with the latest insurance and regulatory standards, including local fire codes.

Our extensive experience in Fire Alarm Services encompasses a range of crucial aspects, including system design, plan submittals, budget and planning services, expediting services, system installation, system integration, test and inspection, as well as maintenance services.

With a focus on precision and attention to detail, we ensure that every step of the process is executed to perfection, providing you with a reliable and compliant fire alarm system that offers optimal protection and peace of mind.

Access Control Systems ACS

BELADI ESS team boasts an extensive portfolio of Access Control System (ACS) projects and orders that we have successfully implemented.

With our expertise, we assist our clients in effectively managing and controlling access to their facilities.

By deploying advanced access control systems, our clients have the ability to regulate and authorize entry, ensuring the security and safety of their premises.

Our solutions provide them with the means to determine who can enter their facilities, granting authorized individuals the appropriate access privileges while maintaining strict control over unauthorized access attempts.

Electrical & Instrumentation

Beladi has earned its reputation as a distinguished and industry-leading provider of innovative Electrical & Instrumentation solutions. Our extensive expertise encompasses every stage of the project lifecycle, starting from meticulous design and encompassing the seamless supply, construction, testing, and commissioning of high and medium voltage substations. With a deep understanding of the intricacies involved, we tailor our solutions to meet the specific needs of each project, ensuring optimal performance and efficiency.

One of our key strengths lies in control system modification. We possess the knowledge and experience to enhance and upgrade control systems, enabling our clients to achieve seamless integration, improved functionality, and reliable operations.

By implementing cutting-edge technologies and adhering to industry standards, we deliver solutions that maximize productivity and minimize downtime.

Clients across a wide range of industries have placed their trust in Beladi for comprehensive electrical and instrumentation project management.

We understand the importance of timely execution, budget adherence, and exceptional quality, and we strive to exceed expectations at every step. Our dedicated team of experts works closely with clients to develop customized solutions that align with their goals and requirements.

When it comes to electrical and instrumentation projects, Beladi is the partner you can rely on for unmatched expertise, unwavering commitment, and successful project delivery.

Partners

Explore our esteemed network of trusted partners, comprising industry leaders and innovators. These strategic alliances empower us to leverage cutting-edge technologies, access specialized expertise, and collaborate on groundbreaking solutions, ensuring that we consistently deliver exceptional results and comprehensive solutions that surpass our clients' expectations.

Together with our partners, we forge strong relationships built on trust, mutual growth, and a shared commitment to excellence.

Through this collaborative approach, we are able to stay at the forefront of industry advancements and continue to provide our clients with the highest level of service and innovative solutions.

Lenovo PC / SIG

one of the world's leading personal technology companies, producing innovative PCs and mobile internet devices

Western Digital

Western Digital Corporation is an American computer drive manufacturer and data storage company, headquartered in San Jose, California. It designs, manufactures and sells data technology products, including data storage devices, data center systems and cloud storage services.

Huawei

Huawei Technologies Co., Ltd. is a Chinese multinational technology corporation headquartered in Shenzhen, Guangdong province. It designs, develops, manufactures and sells telecommunications equipment, consumer electronics, smart devices and various rooftop solar products.

Team and Expertise

At Beladi company we have assembled a highly skilled and dedicated team that possesses a wide range of expertise to meet the diverse needs of our clients. Our team consists of experienced professionals who are committed to delivering exceptional results in the fields of contracting, general services, and information technology.

In the contracting division, our team includes project managers, engineers, and skilled technicians who are adept at managing various construction and infrastructure projects. With their extensive knowledge and attention to detail, they ensure the successful execution of projects on time and within budget.

Our general services team comprises experts in facility management, maintenance, logistics, and procurement. They are equipped to handle a range of tasks, providing comprehensive solutions that enhance the efficiency and functionality of our clients' operations.

In the IT department, our team of technology specialists brings a wealth of knowledge in network infrastructure, software development, cybersecurity, and IT support. With their expertise, we design and implement innovative IT solutions tailored to our clients' specific requirements, driving digital transformation and maximizing operational efficiency.

Through our team's collective experience and ongoing professional development, we stay at the forefront of industry advancements, ensuring that we deliver cutting-edge solutions and services to our valued clients.

Quality Assurance

At Beladi Contracting & General Services & IT, we prioritize the highest standards of quality in everything we do. Our dedicated Quality Assurance team is responsible for ensuring that our projects, services, and IT solutions meet or exceed industry benchmarks.

We implement rigorous quality control processes, conduct thorough inspections, and adhere to strict compliance regulations to deliver excellence and customer satisfaction.

Our commitment to quality is ingrained in our company culture, driving us to continuously improve and exceed client expectations.
